DETAILED ACTION

1. Claims 1-2,4-6, 9-10, and 15 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims of to be patented claims^{of} application No. 09/836769. Although the conflicting claims are not identical, they are not patentably distinct from each other because these claims do not read over claims 6-7, 9-11, and 14 of application No. 09/836769. It would have been obvious to one of ordinary skill in the art to define the apex as the midpoint of the cradle as set forth in the claims.
